

Testimonials

CitySoft Software is a content management software package company that employs the KnowledgeWatch system to information mine the Web for news for its clients (Social Sector Organizations)

“We have been very impressed with KnowledgeWatch. In addition to enhancing our CitySoft search routines, KnowledgeWatch tailored an interface to their powerful KnowledgeWatch news mining service. So, KnowledgeWatch puts a vast amount of content in the hands of our clients and provides them with a way to easily filter it to meet their needs. Our customers can now save hours each day by externally mining and delivering very focused news content to their CitySoft managed Web sites. We would recommend KnowledgeWatch to anyone.”
